

Specifications of 10 man Ice Dragon Boat	
	Club 10 man Ice Boat
Construction	1) "2 part" moulds, with 1 mould for the hull and 1 mould for the entire internal structure, from bow to stern. Double hull construction.
	2) The internal and external mouldings are then bonded together over almost their entire surface which also provides the maximum possible stiffness.
	3) An internal surface of gel coat for the ultimate protection from the weather and ease of cleaning.
Material	Fiber Glass/Poly resin
Length	7.6m
Width	0.88m
Depth	0.40m
Weight	120±5KG
Bench Seat	Anti-slip pattern wooden finishing composite fiberglass with 5 degree of pitch, to provide an ergonomically ideal sitting position.
Deck Material	Fiber Glass/Poly resin
Drum Seat	Treated hardwood, lock design to make sure it is easily to install and uninstall.
Drum	Traditional Hong Kong style.
Steering System	Yes.
Number Holder	Aluminum, easy to install and uninstall the number plate.
Head	Moulded fiberglass, painted, lock design which is convenient to install and uninstall.
Tail	Moulded fiberglass, painted, lock design which is convenient to install and uninstall.
Section	No section.
Scales(Patented)	Painted in gel coat using the seamless-knitting technology.
Anti-slip floors	All floor surfaces have anti-slip pattern, which is part of the layup of the boat, so will last for as long as the boat.
Keel Reinforcement	Along the middle of the cockpit from bow to stern, which increases the strength of the boat.

If you have need of custom colors, pls ask us in advance.
